Thoughts of Thrift

ABRAHAM LINCOLN said: "Economy is one of the finest and highest virtues. It begins with saving."

GEORGE WASHINGTON said: "Economy makes happy homes and sound nations. Instill it deep."

And many others, before and after the days of these great leaders, have exhorted to thrift and deplored extravagance.

A savings account is the emblem of thrift. This institution will welcome yours.

The Masonic Social Club enjoyed its first "big time" last week. Although the number present was not as large as expected, those present are strong for the next time, which has been set for July 8. The committee in charge is Walter Stray, Calvin Bohnett, Robert Scholz and Roy Archibald.

The Geo. H. Higbee family, of Berkeley, were week-end visitors in the valley. They have a soft spot in their hearts for this community, having lived west of town two years ago. This valley is always an attraction to those who have been here before, as well as to new comers. We hope that the longing may bring such good people as the Higbees back to us.

G. C. Bradford is working up one of the biggest booster campaigns ever put over in this country. The proposition is an immense advertising boom for Santa Clara, San Joaquin and Sacramento valleys, and the northern part of the state. Some of the big men of the state declare it a world beater, if it can be carried out, and Mr. Bradford is very optomistic over his scheme.

The Eighth Grade graduation exercises of San Tomas district will be held at the school house Friday fevening, June 11. The graduates are: Norman Angell, Charles Bone, Edward Anderson, and Maurice Luce. Miss Agnes Howe is the speaker for the occasion. On Saturday the school will hold its picnic at Congress Springs.

Kermit Bryateson, driving his big Pierce Arrow, collided with the Santa Cruz bound train at the Campbell avenue crossing, Sunday morning. The S. The auto was taken to San Francisco Monday by E. C. Merrill, of the Orchard City Garage, where the necessary repairs will be made.

School Party

Anna Lund was hostess to a party of her young friends and schoolmates last Friday evening, about a score being present. The evening was spent in games and dancing, ending with a service of delicious refreshments. Those present were: Edwin Mitchel, Ada Smith, Foster Downey, Ruth Miller, Chester Rummel, Irene Preston, David Strom, Helen Beal, Verne Sawyer, Lillian Davidson, Lucius Buck, Betty Candee, Windsor Cutting, Wilma Smith, Carl Creigh, Mildred Burns, Irwin Henry, Henrietta Toles, Kenneth Peske, Alice Strom, Paul Christenson, Anita Sirom, Ilda Williams, Dorothy Gross, Anna Lund, Caroline Lund.

"The Californian"

Los Gatos is in the midst of preparations for its annual out-door pageant, which will be held the evenings of June 18 and 19. This year the great natural amphitheater will be the scene of a stupendous historical spectacle, "The Californian," written, as well as directed, by Wilbur Hall, the well known magazine writer. The cast of 500 persons required to stage the brilliant production has been recruited from the townspeople, and Mr. Hall says he is finding a surprising number of the participants to have a marked histronic ability. On Friday and Saturday afternoons an old-fashioned California barbecue will be held to accommodate the hundreds of pageant visitors.

Every effort is being made to insure an even greater success for this year's pageant than was realized last year. Gorgeous costumes are being designed by Maynard Dixon, of San Francisco, an artist of great repute. E. J. Duffey, the lighting expert, who had charge of the lighting effects of the Bohemian Club plays, and other big out-door events, is working in co-operation with J. W. Squires, for a spectacular production.

The pageant covers the most interesting and picturesque episodes in the history of California. It shows the period from the arrival of Sir Francis Drake up to the admission of California into statehood. The story is handled in a powerful and effective manner, very different from the usual historical reviews. It will be possible for the spectator to visualize the birth and growth of California traditions from their earliest beginnings. Particular attention is being paid to the authenticity of the costumes in all their vivid color and splendor of the romantic past.

Cambrian Graduation

One of the best classes of the year was graduated and received its diplomas at Cambrian school Friday morning. The setting for the exercises was beneath the trees of the yard, with a green background of pepper boughs and flowers.

The program was begun by singing "America" and songs by the school, followed by the address of welcome, given by Beatrice Ralston. The valedictory was very well delivered by the valedictorian, Irving Townsend.

The speaker, Attorney Robt. Dyer, of San Jose, who spoke in place of L. D. Bohnett, who was unable to be present, was introduced by F. E. Duncan, of the school board.

The School then sang "Bob-o-link' in a most pleasing manner.

The diplomas were presented by Mr. Duncan with a few appropriate remarks.

Following congratulations to the class, a service of ice cream was enjoyed by all present. It is understood that every member of the class will enter high school next term, which speaks most highly of the influence of the teachers and ideals of the parents.

Mr. Duncan presented the prizes won by those in the garden contest, Willie and Leslie Driesback winning the boys' first and second, Marie Frumatri winning the girls' first and second. The girls and boys who received honorable mention were Merle Swearingen, Virginia Anderson, John Duncan.

Miss Goldsworthy, who has been the teacher and guiding star of the class for the past two years, has meant much to her school, and as she does not return next year, she carries with her the love and best wishes of the entire district.

Friends Entertained

Mr. and Mrs. Jas. Turner were host and hostess at musicals at their beautiful home south of Campbell, Saturday and Sunday evenings. The music was furnished by Marjorie Fisher, violinist, of San Jose, Madame Joan Ray, soloist, and Mr. A. H. Banwell, of San Francisco.

Both Miss Fisher and Madame Ray have been heard in Campbell before, but their many friends and acquaintances never tire of their beautiful music.

Mr. Banwell, one of the original Anzacs of New Zealand, besides his versatile and entertaining performances at the piano, is a reader of many parts, and kept his audience in an uproar with his "bally bloomin' Britisher" recitations and anecdotes.

During the evening, punch and wafers were served the guests, Mrs. Turner's sister, Mrs. Nutting, assisting.

The J. D. Blaine and E. E. Lanphear families motored to the Big Basin Sunday, for an outing among the beautiful redwoods. They had the pleasure of visiting with Mrs. Meda Waite and Paul Clark fot the day.

Intoxications

Intoxications, you remember, are of many kinds. There is, of course, the once familiar one of alchohol. Then there is the elation folks find at the positive blessing of having a raise in wages, or the negative one of being missed by the man with the subscription list. Children are said to dance with joy, married men are supposed to smile when their mothers-in-law go away for a long visit, and young and old laugh with glee when Charlie Chaplin falls down stairs. All these last are merely forms of mild intoxication.

Alcoholic intoxication was, after all, but a bad imitation of a good thing. The wise man avoids that which dulls his senses, and trains his tastes and feelings to respond to the intoxications of simple pleasures. He learns to enjoy nice music, fine scenery, healthful sports, good books, worth-while friends—and even the practical day's work. In the cultivation of such things, his power of enjoyment grows not less but more.

The wise man, too, learns to enjoy good food. He knows he'll be a better man for it. So he asks his wife to brew Blaine's Steel-Cut Coffee—and the fine aroma sends the blood coursing thru his veins. He shows his prudence, also, by bringing home for his flapjacks the delectable Log Cabin Syrup. For [illegible] he finds a tingle in Welch's Grape Juice [illegible] and in Applju. But perhaps the greatest charm of all is found in the delightful, the salubrious, the bracing, the cheering, the all-satisfying Pinebrosia—for one of the finest thrills of your life spend 50c for a bottle of Pinebrosia!

SURPLUS FARM FUNDS

The farmer, like a good business man, must keep his surplus money in such shape that he can use it in his business when funds are required.

Investments outside of your business, even safe ones, are not always easy to turn back into cash. But an Interest Earning Certificate is an investment on which you can collect your money, with interest, on a specified date. If necessary, you can cash it any time without any loss of principal.

It is a good plan for every farmer to keep some funds earning interest, and thus have ready cash for emergency or opportunity.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

INTERPRETING SCOUT OATH

There is something about that scout oath and law of ours that puts the iron in the blood and the steel into the soul, says Richard Brauenstein of Sharon, Conn.

Just think what the result will be when every boy of scout age in the land begins to interpret that oath and law in his daily life, his walk and talk. We will be giving the world what Professor James calls "the moral equivalent of war."

This learned man said, "The martial character can be bred without war." He tells us that the military ideals of hardihood and discipline can be imbued into the life of young America, by conscripting every man into the struggle with nature.

"To coal and iron mines, to freight trains, to fishing fleets in December, to road building and stoke holes and to the frames of skyscrapers would our gilded youth be drafted to get the childishness knocked out of them and to come back to society with healthier sympathies and soberer ideas."

It was Tennyson who wrote, "Peace hath her victories no less renowned than war." And in that oath and law of ours I see potentialities, sublimities, majesties, achievements.

SCOUT SMILE HIS UNIFORM.

"A scout has two uniforms. One he seldom doffs," writes Colin H. Livingstone, president of the Boy Scouts of America. "The other he ofttimes dons. The first is a clean and smiling face, the evidence of a clear conscience and a healthy body, a wonderful invitation to everyone around to look and be happy and cheerfully to do their bit. This smile is subtle and far-reaching in its influence.

"It is a sign of self-conquest, an em- [illegible] compelling atten- [illegible] of cheerfulness. [illegible] uniform of yours is not made in a loom, but made in the heart and worn to make the world brighter and better and worn to show everyone that in your mind and life there is hope, happiness, kindness and the courage to look, to say and to act the pledges you made at the moment you promised to be a scout, to be a leader.

"Go forth, Scouts, with this smile, to win for your plan of life others who will smile with you. Never take off the uniform of the smile."

"IT CANNOT BE DONE."

Somebody said "It couldn't be done,"
But the scout, with a chuckle, replied
That maybe it couldn't but he would be one
Who wouldn't say so till he'd tried.
So he buckled right in, with a trace of a grin,
And he started to sing as he tackled the thing
That couldn't be done, and he did it.

Somebody scoffed, "Oh, you'll never do that;
At least no one ever has done it."
The scout took his coat off and took off his hat
And the first thing we know he'd begun it.
With the lift of his chin and a bit of a grin
He started to sing as he tackled the thing
That couldn't be done, and he did it.

There are thousands to tell you it cannot be done;
There are thousands to prophesy failure;
There are thousands to give you the list one by one
Of dangers that wait to assail you.
But take off your coat and go to it;
Just start in to sing as you tackle the thing
That cannot be done and you'll do it.

—J. SCOTT CASE.

SCOUT WINS AUSTRIAN FLAG.

The announcement of prize winners in the army essay contest was made by the army board of adjudication in the New York district, which has selected the prize essays from among those submitted by boy scouts.

Walter A. Helbrig, sixteen-year-old senior of Morris high school and a scout in Troop No. 140 of the Bronx, was awarded the chief honors, his essay being selected as the winning one for the entire district and for the Borough of the Bronx.

The prize as district winner is an Austrian flag, brought to this country as a war trophy by an English Red Cross officer. As borough winner he has won for his school a silk American flag, which will be awarded by a war veterans' organization.

SCOUTS LOCATE LOST CHILD.

When neighbors were about to give up the search for a two-year-old boy who had wandered into the woods near his home, the scouts of Naugatuck, Conn., were called to carry on the search, and after working well into the night they found the child.

COTTON SOARS $5 A BALE; CROP IS LOWEST IN YEARS

New Orleans, La.—Cotton jumped $5 a bale June 2 in the first ten minutes of trading after a delay of three hours in opening the exchange, while waiting for formal approval by President Wilson of a resolution amending the agricultural bill. The Government crop report, showing the lowest May 25 condition on record, caused exciting buying. Prices advanced 92 to 100 points.

Washington—Reporting the condition of the cotton crop on May 25 at 62.4 per cent of normal, the Department of Agriculture announced that this was the lowest in its record of fifty years and that the recurring statement, "worst ever known," was confirmed.

Washington — President Wilson signed a joint resolution eliminating from the agricultural appropriation bill the Comer amendment affecting cotton futures grades which through a clerical error was included in the original measure.

'SENATE MEXICO SCHEME MEANS WAR'—GOMPERS

Labor Leader Says Action Proposed by Committee Would Bring Strife

Washington — Samuel Gompers, president of the American Federation of Labor, declared in a formal statement June 3 that a war between the United States and Mexico would result if the recommendations of the Senate committee which investigated the Mexican affairs were carried out. Gompers said:

"The report of the Senate subcommittee investigating conditions in Mexico under the chairmanship of Senator A. B. Fall amounts to a declaration that unless the Mexican Government rewrites its constitution in accord with the idea of the American oil and mining interests the Government of the United States will "intervene" in Mexico.

"The report of Senator Fall's committee demands a number of specified changes in the Mexican constitution. These changes would be the consummation of what has been long the hopes of the great oil and mining interests, as well as the land and timber interest, which have fomented the bitterness beween the people of the United States and Mexico.

"In some minor particulars recommendations made by Senator Fall's committee may be acceptable, but the heart of the report can only be described as vicious. The report demands that unless the Mexican constitution is altered as recommended the Government of the United States "send a police force, consisting of the naval and military forces of our Government, into the republic of Mexico to open and maintain open every line of communication between the City of Mexico and every seaport and border port in Mexico."

"Those who know Mexico and the Mexican people understand fully that such action would mean war between the two countries."

Labor Party After Candidate

The American Federation of Labor has more than 3000 local campaign committees at work and is supplying them with information concerning those members of Congress whom it is planned to unseat. The Federation will issue a statement from Washington headquarters saying that its campaigns in 32 states to elect senators have been organized.

GIRL STUDENTS IN WILD CAPERS ATOP TABLES

Vie With Cafe Entertainers in Daring Stunts in Fraternity House

San Francisco—Six young women, dressed in the garb of September Morn, dancing atop of tables to the tune of wild music and the popping of corks from champagne bottles, brought about the suspension of six prominent members of the Delta Kappa Epsilon fraternity, University of California, according to a statement issued June 3 by the office of President Barrows.

As a result of the affair the University of California chapter of the fraternity may lose its charter, and the future standing of all fraternities and sororities is imperilled. President Barrows has made representations to the national officers of the Delta Kappa Epsilon, which may result in the withdrawal of the charter at the University and the closing of the fraternity house.

The party was held at the Delta Kappa Epsilon fraternity house, at Telegraph and Durant avenues, shortly after the closing of the college semester three weeks ago, but did not come to light until the issuance of President Barrows' statement June 3. It is definitely known that two University men and two girls have been told that they are not to return to college next semester, while two others have been suspended pending an investigation of their cases.

The names of the students have not been made public. The "Dekes" are all sons of prominent California families.

Upwards of fifty attended the "party", which was featured by the popping of corks and semi-nude Dianas. It is alleged that all were not "Dekes", but that many of the midnight revelers were campus celebrities from other fraternities.

Residents in the neighborhood of the fraternity house were awakened in the small hours of the morning by shouting and singing, which did not cease, they say, until sunrise.

The fashionable Cambridge Apartments, directly across the street from the fraternity house, was furnished a rare entertainment by the "goings on." The official complaint to President Barrows was made by Mrs. Lulu M. Cowan, manager of the Apartment house, and the law firm of Ellison, Clark & Nichols, representing the owners.

The complaint was laid before the Student Affairs Committee of the University, headed by Dean C. L. Cory, and resulted in letters to the parents of four students—two men and two women—asking that the students be not returned to the university.

President Barrows' statement covering the case is as follows:

"On one of the last nights of the term scandalous behavior occurred at one of the fraternity houses which had been closed for the summer. Two members of the fraternity were particularly offensive.

"Before departing for the East, President Barrows, thoroughly investigated the matter. The parents of the students involved were notified of the fact and of the unwillingness of the university to readmit the students involved.

"The future of the house is being made the subject of consultation with the national fraternity."

The Delta Kappa Epsilon fraternity is one of the largest and most popular of all of the college organizations in America. Many prominent men are numbered among its members. The University of California chapter numbers among its members the scions of several prominent California families and is one of the most popular on the campus.

The revelries in question started at an early hour and before the evening was far advanced had developed into a regular orgie, it is said. With the opening of more bottles the revelry increased and only ended with the Bachannalian danced by the almost nude women.

BAY MACHINISTS RETURN TO JOBS IN SHIPYARDS

San Francisco—Machinists in the bay district shipyards and other shops who have been on strike continuously since October 1. June 3 at a largely attended meeting in the Valencia Theater voted by nearly 4 to 1 to return to work at once.

When the strike began last autumn the yards virtually shut down for a time, but reopened November 24 with reduced crews. The vote stood 800 for returning to work and 230 against.

Conditions of the return include retention of the old wage scale of $6.40 a day, with a graduated increase beginning the first of next month, the men to return to work next Monday.

BILL INTRODUCED TO CUT PRESIDENT'S PAY TO $50,000

Washington—A bill providing for reduction of the salary of the President of the United States from $75,000 to $50,000 a year was introduced June 3 by Senator Smith, Democrat, Georgia. Senator Smith also introduced a resolution proposing an emendment to the Constitution which would limit the President to one term of six years.

Wanted Her Food

A vigorous woman boarded a bus and pushed a small boy down on the seat. The other passengers noted that the boy had his head completely hidden by a tightly fitting saucepan, and their sympathetic inquiries elicited the fact that his unhappy mother was taking the equally unhappy youth to the "orspital" to "have it took off."

"But how did he get it one his head?" asked a passenger.

"He was playin' at soldiers, and wanted a 'elmet, so 'e took the sorsepan," said the mother.

"It'll be a bad job for him!" said another passenger.

"It's a worse one for me," retorted the mother; it's the only sorsepan I've got, and there's my breakfast in it!"—London Tit-Bits.

CHIMNEY SMOKE

My kitchen window is frosted o'er
With fairy fantastic tracing,
Showing long plumed birds and
white clad elves
With fine fern fronds interlacing.
I can catch a glimpse of the world
outside,
I know it is cold and snowing,
And away through the flakes at the
nearest house
A cloudlet of smoke is showing.

What though my window is white
with frost,
The cold day dull and dreary?
It does me good just to see that
smoke
(My world seems bright and
cheery),
For I know at the fireside whence
it comes,
I would find a welcome waiting,
So I sing my song, and my heart is
warm
Though the storm seems unabating.

CALOMEL SELDOM SOLD HERE NOW

Nasty drug salivates, makes you sick and you lose a day's work.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.—Adv.

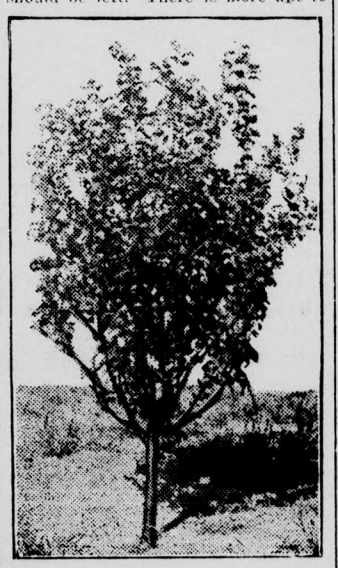
PROPER PRUNING FOR APPLE

As Tree Gradually Becomes Older, Treatment Decreases in Severity and Changes in Kind.

The general pruning treatment recommended for apple trees is stated briefly as follows by V. R. Gardner of the University of Missouri College of Agriculture in Circular 90: During the first few years of a tree's life in the orchard it should be pruned severely (starting out with perhaps a 75 per cent pruning) and this should consist in both thinning out and heading back, with perhaps the emphasis upon the heading back. This heavy pruning is for the purpose of encouraging wood growth and developing the framework of the tree. As the tree becomes older pruning gradually decreases in severity until at six or seven years when it is reaching bearing age and size very little pruning is necessary; and as it gradually lessens in severity it gradually changes in kind, consisting less and less in heading back and more in thinning out. This general method of procedure serves to develop a fruit-spur system and bring the tree into bearing. After the tree is once in bearing pruning gradually increases in amount but continues to be mainly a thinning out; and this thinning out should consist in a removal of a few large limbs. When this plan is followed there is some thinning of fruit spurs and the fruit crop, over-bearing is prevented and the length of life, regularity of bearing and efficiency of individual fruit spurs is promoted.

Ordinarily pruning is done at some time in the dormant season after most of the leaves are off in the fall and before the buds open in the spring. Doubtless this is the best time of the year for most pruning. The tree is bare, and it is easier for the pruner to see what he is doing and choose more intelligently between limbs that should be removed and those that should be left. There is more apt to



Well-Pruned Apple Tree, Three Years Old.

be time for the work than during the growing season. Probably it is better to prune while the tissues of the tree are not frozen, as there is less apt to be mechanical injury to them from bruising, splitting, etc. Certain specific objects may be accomplished by summer pruning, but it is necessary that the summer pruning be timed just right, and that particular care be taken if those objects are to be attained. At least, in case of the apple it is believed that summer pruning should be attempted only by the professional grower who is prepared to make a careful study of the subject.

OPEN-CENTERED TREES BEST

Possess Advantage of Exposing Leaf Surface to Sunlight—Weaker Than Leader Type.

The open-centered tree, theoretically at least, possesses the advantage of exposing its leaf surface, spur system and fruits more fully to sunlight and of facilitating certain orchard operations, such as pruning, spraying, thinning, and picking. On the other hand it is mechanically weaker than the leader type of tree, in that there are fewer and larger scaffold limbs that are more apt to split down at the crotches when heavily loaded and subjugated to high winds.

HORTICULTURAL NOTES

There is a time in the career of all insects and fungus diseases when spraying is most effective.

* * *

It pays to prune the orchard and berry patch. Do it now. Spray also and clean marketable fruit will result.

* * *

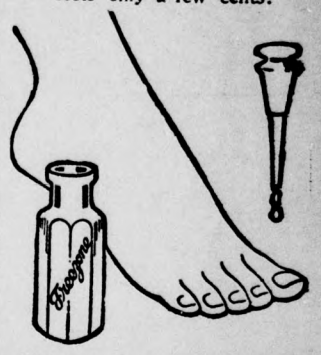
It is especially desirable when spraying up under the trees where the foliage is thick and it is necessary to cover every portion thoroughly.

* * *

Don't take chances with San Jose scale. Give your apple trees at least one application of full strength lime-sulphur. Make this application before any of the buds commence to swell.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.



With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug

Program At Saratoga

It is a pleasure to announce that Miss Dorothy Johnston is to give a very interesting performance at the club house Saturday evening, June 12, from which the Foothill club bids fair to derive a substantial financial return.

Miss Johnston has achieved an enviable success in presenting a unique entertainment called "The Eastern Gate." It was warmly applauded by an enthusiastic audience at the University of Arizona, and is to be put on later at the summer school in Berkeley. It might be briefly described as scenes from the Orient. There is a series of readings and songs, poses and dances, all vividly representative of oriental life. The stage setting, screens, draperies and costumes are specially designed for the performance, and Miss Johnston has her own musician. The program is divided so that the parts are given in four groups.

The price of the tickets is seventy-five cents, and half the proceeds will go to the club. A committee of women from the club will have charge of the tickets, which will be sold direct by members of the committee, as well as at the drug store and Saratoga Inn.—Saratoga Star.

Club To Hold Picnic

The Country Woman's Club will hold its annual picnic Monday, June 21, at the home of Mrs. Lillie F. Shaw, on Johnson avenue. Each guest is to constitute herself a committee to help. The plan adopted was for each one to bring sandwiches and a dish for the table, and all utensils, including a tray.

Every one was urged to help out in the waste paper drive, Saturday, June 19, with old magazines and newspapers, to be left at the library. The proceeds of the first drive went into the Campbell Library Fund, but this will be used to pay for cleaning up the library lot.

The Club program Monday was in charge of Mrs. H. P. Bean, the topic being "Modern Inventions." The leader read some very interesting descriptions of life at the time of the first settlers, and the following years, showing by contrast the wonderful changes that have been made in our modes of living, travel and amusement.

Those present called to mind many additional ones, emphasizing those which seemed to have helped them most. It proved to be almost a case of

"Count your many blessings,
Name them one by one."

Santa Cruz Road Closed

The road to Santa Cruz from Los Gatos to Glenwood was closed Tuesday by the contractors. At the top of the hill just below Alma, motorists will turn to the left, taking the Soquel road to Soquel, which is a fair dirt road, and the supervisor of the district will keep it watered. It will be used for southbound traffic only.

Returning, motorists will use the highway from Santa Cruz to within one-and a-half miles of Glenwood, where they will take what is known as the Mt. Charlie road for six miles, joining the main road leading to Los Gatos, at Patchen postoffice. The Mt. Charlie road is very narrow, and will be a northbound road only. It is very steep at both the entrance and exit, and cars must be equipped with good brakes.

New Manager

C. J. Johnson, formerly of Turlock, is here looking after the John Bryntesen interests this week. Mr. Johnson has assumed the management of the entire interests in California, and elsewhere on the Pacific Coast, of Mr. Bryntesen, taking the duties of John Hagelin, who recently resigned the position. Mr Hagelin has handled this business very successfully for a number of years, besides his own interests, and is glad to be relieved of the task.

Mrs. Johnson will remain in Oakland until July, when she will come to the Bryntesen home on Johnson avenue, where Mr. Johnson is now in charge.

Mr. Bryateson, with Kermit and Ruth, will leave about the first of July, on their return trip to Sweden.

The baccalaureate sermon for the C. U. H. S. graduating class will be delivered by the Rev. George W. White, of San Francisco, Sunday evening at the Methodist church, and commencement exercises will be given Friday evening, June 18. The sewing class of the High school will exhibit a display of its work in the Farmer's Union window Wednesday, Thursday and Friday next week. The Art classes will display their work at the school Friday evening, commencement night. Some of the articles were made for the reception and were worn at that time.

Sealed Bids Wanted

Sealed bids will be received for the building of the two-room addition to Cambrian school house. Plans and specifications may be obtained from the architect, H. W. Higbie, or from the clerk of Cambrian District, F. E. Duncan. Bids will be opened at the office of the architect at 2:00 p.m. Tuesday, June 15, 1920. The trustees reserve the right to reject any or all bids.

Signed, F. E. Duncan, Clerk.

MEAN DISPOSITION.

"You actually got a pleasant word out of Mr. Grampus?"

"Yes."

"How did you contrive to do it?"

"I told him a neighbor of his had broken an arm while cranking a flivver."

The Growler.

He kicks about his many woes,
He is a constant fretter,
I wonder if the grumbler knows
A world that's any better.

Honesty the Best Policy.

"Did you ever buy votes?"

"No," replied Senator Sorghum. "I always thought that an effort to buy a man's vote was as good a reason as you could possibly put into his mind for voting against you."

Miss Leila Dodson won the $55 Apex Vacuum Cleaner given by the L. H. Bullock Co., of San Jose, at the 100 per cent Exposition.

Miss Marie Page received her degree of Bachelor of Arts, with honors, from the College of the Pacific, Wednesday, and Miss Ruth Lloyd a degree in music.

Mr. Richard Rodriguez, principal of the Campbell Grammar school, has been ill for a week, and unable to be at school except for a few minutes. He apparently has a case of grippe, complicated by over-work.

Dr. and Miss Ainsley arrived Thursday evening and were enjoying a pleasant visit with the J. C. Ainsley family, while J. C. and Vernon Parrot were flagging passing trains at Truckee in hopes of hailing the visitors. How many meals and sleepy hours they lost, they are not telling.

Mr. and Mrs. H. A. Watrous, of Gilroy, motored to Berkeley, last week for a short visit with relatives, and to attend the marriage of Ivyn I. Farwell to Miss Mamie Miller, of that city. Little Wilrose Watrous attended the bride as flower girl. Mr. Farwell will be remembered as the brother of Mrs. Watrous. He made many friends here in his frequent visits at the Watrous ranch, and both he and his charming bride attended several social functions at Campbell.
